## PUBLIC NOTICE

The Liberia Electricity Regulatory Commission (LERC) informs all individuals and companies engaged in the generation, transmission, distribution, sale and import/ export of electricity within the Republic of Liberia, that you are required to register with the Commission by 13<sup>th</sup> October 2021. Failure to comply with this notice is a violation of Section 6.12 of the 2015 Electricity Law of Liberia.

The 2015 Electricity Law of Liberia requires that individuals and companies engaged in electricity activities must register so that the LERC can ensure adequate electricity supply to meet the demand of the country. The purpose of the Law is to liberalize the electricity market, improve quality and efficiency and ensure affordable and accessible electricity services throughout the country. Safety and consumer protection are critical elements of the Law.

Following the National Census of Electricity Operators in Liberia, LERC has created a database as the first step in effective regulation of the sector. It has also produced regulatory instruments and procedures that will guide existing operators and those wishing to enter the electricity market.

The Liberia Electricity Regulatory Commission is a statutory body created by the 2015 Electricity Law to oversee and regulate the electricity sector. Principal functions of the LERC are licensing operators, approving tariffs, establishing technical standards and codes, resolving disputes, and issuing regulations in accordance with the Law.

Registration and application forms are available on the LERC website: [www.lerc.gov.lr](http://www.lerc.gov.lr) and at our offices, located behind Lonestar MTN Headquarters, Tubman Boulevard, Congo Town, Monrovia. Forms can be picked up or dropped off between 10:00 a.m. and 4:00 p.m. from Monday to Friday. Additional information can be obtained at the Commission's office or by calling the following numbers: +231776004350/+231881135610.
